

NetSuite for the
Contract Furniture Industry

Field Service Management

NextService.[™]
Field Mobility

Overview

With the award-winning **NextService Field Service Management SuiteApp**, the contract furniture dealer has 360-degree visibility of assets in the field— from furniture and appliances to walls and partitions — and can leverage real-time data to guide nimble business decisions.

NextService is built in, on, and for NetSuite, so users can rely on a seamless user experience and a single source of truth for their contract furniture business intelligence.

Whether tracking resources for an installation project or a routine service visit, NextService empowers the contract furniture dealer to improve operational efficiency, increase service revenues, and delight customers with the following features:

 Work Order Management

 Schedule and Dispatch

 Asset Management

 Field Mobility

 Inventory and Returns
