

NetSuite for the Contract Furniture Industry

RF-Smart Warehouse Management Barcoding & WMS Solutions

Overview

With the award winning RF-SMART SuiteApp the contract furniture dealer will have a real-time visibility into overall operations ,also creating efficiencies through out inventory movement and detail.

Through mobile scanning, a WMS allows you full traceability from the receiving process all the way through delivery.

As a Built-for-NetSuite solution , RF-SMART is an industry-leading product that meets Oracle NetSuite's highest standard for SuiteApp Solutions.
